Reichstag Votes For Peace, Defies New Chancellor

Amsterdam Dispatches Reveal Michaelis As Militarist to the Core

COPENHAGEN, July 20 .- The German Reichstag yesterday evening passed the peace resolution fostered by the coalition semi-liberal and Socialist party members, according to dispatches received here today. The vote was 124 to 116. It was announced amid great applause from Had It Remained As Originalthe loft and center.

The coalition peace resolution de clared that Germany did not desire peace with annexations.

CROWDS AT REGISTER OFFICE WATCH DRAFT DRAWING RESULTS

The Register began receiving the numbers as drawn over the Pacific wires from the United Press in Los Angeles at a few minutes after 7 o'clock this morning.

Just as rapidly as the numbers that came within this district's highest number the corresponding number on the list posted on the Register window was mark-

In that way the crowd gathered on the sidewalk got the numbers and the names here as fast as the Register or anyone else here could get them.

Throughout the day there were gathered at the window many young men as well as parents and friends of men liable to draft.

The Register herewith prints the names that are believed to more than amply cover the first draft, for all O: ange County, which is divided into two exemption districts. Later estimates from Washington may change the preliminary report. The lists given below represent the

drawings from over 1600 numbers at Washington. Following is a list of numbers as they were drawn, so far as they had any effect upon Orange County No. 1

which includes the first, fourth and fifth supervisoral districts. In the East numbers were being drawn as high as 10,500, but in this county no significance was attached to

the higher numbers at this time. For instance when No. 18 for all exemption boards was drawn over 400 numbers had been drawn in the East but of that 500 only about one-fourth had any special interest in Orange County. The highest number for Orange

County No. 1 is 2270, and the highest for No. 2, which comprises the district west of the Santa Ana river is 2460. The numbers as drawn, and the names corresponding in No. 1, follow, and so far as they go they represent the order in which they are subject to draft. It has been estimated that No. 1 will furnish 330 men. been determined exactly what each district must give, since there is a possibility that the adjutant general has the power to designate what each exemption district shall receive. the drawing will not be finished until

The 3000 numbers should inform practically every man subject to call among the first 687,000 men. However, from 5000 upward will be necessary to cover certain scattered districts. Numbers ran so high that of-ficials were not certain that so few as 2000 would be enough to cover the first call.

GENERAL GOETHALS

WASHINGTON, July 20. - The Goethals-Denman ship controversy appeared to be finally settled last night It is believed that contracts for building ships and the two proposed government ship yards will be offered tonight. It also is likely that the orders for commandeering ships in the course of construction will be sent out today. It is generally understood that con-

cessions have been made by both sides and that in the future General Goethals will be given a free rein. After a lengthy conference yesterday between General Goethals and the shipping board members, Chairman Denman issued a formal statement that rapid progress was being made and that the entire program probably would be ready in a short time. He also said the board was every assistance from General Goe-

The two government shipyards will be erected on government property, it was stated, and no agreement looking to giving up any of these yards to private interests will be entered into at this time. The commandeering program, it is declared, is being considered by the State Department and a definite policy likely will be deter-

mined upon today. General Goethals will hold another conference at the shipping board today and at the same time will furnish all the data now needed for the board to finally pass upon the program he made last Friday. This program, it is understood, will not be greatly changed except as regards prices. Dr. Den-

"The statement of the Navy Department that submarines have been sinking vessels at the rate of 1,000,000 dead weight tons a month is, as we have previously advised the public, substantially correct estimate. We believe the larger figures mentioned in the press today to be in error. Three million tons of wooden vessels that the board's original pla nin ats major outline contemplates will be required and all the steel ships that the poard's efforts with the ducers have obtained, will be ned sary to maintain even a working bal-

ance against this destruction.' The resolution introduced by Senator Smoot of Utah asking for a report on the progress made by the shipping board, was adopted without a dissent ing vote.

President Wilson's daughter, Miss Margaret, is a good lobbyist. She got the O. K. of Governor Whitman and several New York senators on the bill permitting the use of public schools for civic forums.

ers aplenty, who verily believed that there were no more worlds to conquer, or, to put it another way, there were no methods of trapping the elu-sive clay discs which would hold

scores below the 90 per cent mark. Incidentally, it is a good thing for the veteran saucer smasher that Jack ate a joke. To which may be added Fanning, the famous New York shot, is not a gambler; otherwise Jack could have pulled in a lot of the long green via the hand-trap route.

It all happened this way: Jack has been amusing himself by toting to the big shoots a contrivance that, in general appearance, resembles an overgrown horse-pistol and, of course, is calculated to arouse the curiosity of

SHOOTS GIRL, SELF
SAN DIEGO, July 20.—Enraged, it is said, because his repeated proposals of marriage had been rejected, Domingo J. Amador, apparently a prosperous Mexican, aged twenty-that you can't break fifty per cent of the distant of a projected expedition to kill Indians with a cap pistol. "Quit your kiddin'," says the shooter. "I ain't kiddin'," Jack replies, "and I'll bet you a good smoke that you can't break fifty per cent of the targets it thream?"

with a statement from the Mexican level with his left shoulder, at the consul of later daet saying he was a same time pulling the "trigger" that placed at the disposal of the district

The performance is repeated time and again with variations of targets thrown upside down, on edge, high in the air, and on a straight line close to the ground, while right-quartering and left-quartering birds soar 75 yards instead of 50 yards from the big stationary traps.

When it is all over, the score sheet shows 20 goose eggs out of a possible 25. Sack pockets the cigar and the crowd laughs at the planation of why he fell from the 90 per cent to the 20 per cent class.

And yet shooters will tell you that Jack Fanning is the one man in trap

TODAY'S WAR RECIPE

How to Can Tomatoes

Select firm, well-formed tomatoes. Scald 1½ minutes or until skins loosen. Dip quickly into and out of cold the gun clan.
"What you got there, Jack?" asks a water. Peel and remove stems and cores. Pack directly into cans or hot "Why, that's a hand-trap. Want to jars. Press down with a tablespoon try hittin' some of the birds it (add no water). Add a level teaspoon-ful of salt per quart. Rich Could Always Obtain Plenty to Drink, Says William Shepherd

BY WILLIAM G. SHEPHERD (United Press Staff Correspondent) PETROGRAD, June 12.—(By Mail.) -Russia never has been dry.

Under the old censorship of the days of czardom no correspondent would have been permitted to send this fact to the outside world. But

now the truth may be told. The Russian government liscovered that it pleased the czar greatly to be placed before the outside world as being the sponsor of prohibition in Russia and they did all they could in the way of giving out erroneous impressions as to the ex-

tent of the dry wave in Russia.
Russia did not go dry—for the peasants. But the czar's famous prohibition law was so arranged that any man with money enough could get all the liquor he desired. ment manufacture of vodka was stopped and a law passed prohibiting the sale of any liquor containing more than 3 per cent of alcohol. The importation of wine did not cease. The price of champagne went up to \$25 a bottle with other prices in proportion. The popular cabarets, hotels and restaurants served wines in china pitchers and china cups, but everywhere the man with money was able to have all his liquor orders filled to his small

Foreigners were permitted to purchase all liquors in the shops provided they presented permits to purchase issued by their embassies. There was no law of any kind that prevented a citizen from having liquor on his premises or from drinking it.

The revolution, which put the Workmen and Soldiers' committee into power, practically made Russia dry for the first time. Today a few daring hotel keepers will sell a bottle of eognac for from \$25 to \$40 or a small bottle of ordinary claret for from \$10 to \$15. The importation of any sort high price of liquor is really due to its scarcity in the country. Russia is

rapidly becoming "bone dry."

There is no doubt in the minds of Russians that their revolution was practically bloodless because it was practically boozeless. There are some Russian leaders who say that it was the absence of alcohol that made the revolution possible. A drunken sod-den Russia of the old type could never have aroused itself to real revolt as this Russia has done. A Socialist

"One of the greatest mistakes the czar ever made was to force the peasants to sober up. He took the peasthem good clothes in the way of military uniforms and he gave each peas-ant a rifle and taught him how to shoot. He thought he was turning the peasants into soldiers but they re-mained peasants at heart. When the right time came these sobered peasants turned their guns on him

Mrs. P. M. Betts, Newport Beach, Celebrates Birthday Happily With Family

At the home of Mr. and Mrs. C. C. Butterfield at Newport Beach yesterday a very happy event was the celebration of the birthday of Mrs. P. M. * Betts of Newport Beach. The sump-tuous turkey dinner was presided over * by Mrs. Butterfield and Mrs. Burton and was much enjoyed by all.

Mrs. Betts is hale and hearty at 90 years and has lived at Newport Beach about fifteen years.

Only the family was present at the dinner, with the exception of Mr. and Mrs. S. Penfold and Mrs. Emma Burton, old-time friends. Mrs. Betts received a number of lovely presents, also a beautiful bouquet of ninety pink carnations.

Those at dinner were Mr. and Mrs The decorations were red and white & Each hurt I healed with a tender & P. M. Betts, Mr. and Mrs. C. C. Butterfield, Mr. and Mrs. F. W. Burton, Wm. Betts and P. H. Betts of San Francisest quest, co, Mr. and Mrs. S. Penfold of Garden may have failed, but I did my Grove, Mrs. E. Burton of Santa Ana, Mamie and Lela Burton of Santa Ana.

In the afternoon a reception was given and many friends and neighbors called to wish Mrs. Betts many happy returns. Fruit punch and de licious cake were served. The decorations were ln pink and

white and the cake had ninety pink and white candles. Mr. and Mrs. Betts were born in England. They celebrated their sixty-seventh wedding anniversary on July 10. They came to America in 1864, to California in 1870.

She brought out the thought that not only are the people of America the Lord's, but also the people of China and other countries belong to Him, although they have not the wonderful advantages we have.

She said: "Oh, sisters, it's awful to stand in that country, with its millions who need to be evangelized, and who do not know Christ, and to realize that the heathen have as good a right to be Christians as we have. The thought of China's need staggered me. It's a good ly company that you come into when you belong to the Woman's Mission ary Society, who are doing a great work for their sisters in other lands.'

She told of many who turned from their idols to worship the true and many instances of her work. One needed to hear Mrs. Brown to feel in a slight degree the great need of mis sionary work and the great work the missionaries are already doing.

GROCERS HAVE BIG TIME ANNUAL PICNIC AT PARK geles this morning.

The grocers frolicked at Orange County Park yesterday. And they had the time of their lives, too. They ran and played tug-of-war and had crackereating contests, and did everything in Los Angeles.

Hr. and Mrs. Verne Bishop and litelse imaginable that a crowd of men and women could think of doing when turned loose for a day, free from the cares and worries of the store.

And there were a lot of them there, too. The number is estimated at 250. But Sam Stein was there, and that makes two or three more. Leonard took a picture of the crowd, and Sam looms up with the rest. Must be something new—"groceries—at Sam Stein's of course.

There were races for everyone in cluding the boys and girls and wom-en, and nearly every one got a prize some sort, too.

And then at noon the big feature was the lunch. It was in charge of Chef Ed Young. He had recourse to all the good things that a grocery store contains, and he used his ability to great advantage. Everyone had enough to eat.

The grocers agreed that they had raising garden. had a great day. They further declared that they would have another picnic next year and that it would be diameter. even bigger and better than the one

WASHINGTON. July 10 .- The reason there are so many vacancies in Aviation Section is that only a small percentage of those who apply can pass the physical test. Here's what one must do after filling out a series of application forms.
"Have you ever been seasick?" is

the first question popped. Aviators must be immune to mal de mer.

Tests for near-sightedness and farsightedness, color perception graded to finest tones and vision follow. Vision must be normal.

Heart, lungs and blood pressure Feet must be well shaped and the

nervous system normal. Chest expansion must be three or more inches

Equilibry tests are next. The applicant shuts his eyes and balances himself on his toes with heels and toes together. It sounds simple-but Then with eyes still shut he balances on each foot bringing the other up until the heel touches the

Eyes are then examined more mi-nutely by the use of belladonna and the iris is "x-rayed" to make doubly sure there is no infection. Large ton-sils, and adenoids must be removed. Teeth must be good and sound. Nasal

passage must be clear.

Hearing must be perfect. The tick of a watch must be heard at five feet. Across a 25 foot space the applicant must differentiate between "Glass" and "Grass" and "Brass" spoken in a barely audible whisper.

Equilibrium, the seventh sense, must be perfectly developed. The other senses must be perfect for one impared sense injures the "balance

The applicant is seated in a revolving chair much the same as barbers or dentists. He is whirled ten times in each direction as fast as the chair will revolve, with eyes shut. Suddenly stopped he is to look in the oppo-site direction from which he has been whirled. The regular jumping of the eyeball as the brain seeks to regain its equilibrium shows how quickly the applicant is finding his balance.

Forty times more the applicant is twirled sitting straight with eyes shut and with head dropped at an angle of 45 degrees with the torso. He is told to sit straight when suddenly stopped or to raise his hands straight in front of him. If normal he will throw his weight far to the opposite side from which he has been whirled. He is then stood on his feet and with his eyes closed is told to walk in a straight line to the opposite side of the room.

Many applicants are compelled to have minor operations before they are Examining officers report that if possible to pass by an operation the applicants in every instance immediately make arrangements to be operated on.

The standard for admission to the Aviation Section has been reduced from a college education or its equivalent to the equivalent of two years college training. Athletes who excelled in school are particularly desired and it is well to have a perfunctor knowledge at least, of automobiles and motorcycles and the theoretical functions of motors. The age limit has been reduced to 19.

AN-URIC! The Newest Discovery in Chemistry.

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid there is no other eliminator of uric acid that can be compared to it. For those casily recognized symptoms of inflammation—as backache, scalding uring and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused theumatism, it is cimply wonderful how surely "An-uric" acts. The best of tosults are always obtained in cases of acute rhoumatism in the joints, in gravel and gout, and invariably the pains and stiffness which to frequently and persistently accompany the disease rapidly disappear.

Co to your nearest drug store and cimply ask for a 50-cent package of "An-uric" manufactured by Dr. Pierce, or even write Dr. Pierce for a free cample. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr.

water and describe symptoms. Dr. Pierce's chemist will examine it, then Dr. Pierce will report to you without fce or charge.
Noru: - "An-urle" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box - or more in extreme cases - as "An-uric" (thanks to Doctor Pierce's

achievement) is by far the most pertect hidney and bladder corrector obtain-

BY F. W. GETTY

(United Press Staff Correspondent) LONDON, June 30 (by mail)—"Why is it after British forces have broken the German lines, as at Bullecourt, Messines or Vimy Ridge, they don't push on through?"

One of England's foremost strategists was asked this question today. Here is his answer:

"The whole process of this war is a matter of lines of communication. The reason the British offensive seems to nibble a bit of the Hinden-burg line in the north and then strike a few days later far to the south, is the vital necessity of establishing communicating lines and of consolidating positions.

"When the British move forward after a terrible artillery preparation which has left little of the enemy trenches but powder and corpses, they don't find any Germans there not live ones, at least. The Germans know a day or so in advance when a big push is coming, They can't help guns and men, ready for a counterattack.

The way to stop this counter-attack try to 'come back.'

line, we hold on to it. Bulldog tenacity, the papers call it, but it's military knowledge and foresight just as much. "Furthermore, when the Germans feel sure that a certain spot at which

the British have been nearing is about to be attacked, they rush their reserves and guns over to back that particular sector. Then is the time for us to strike somewhere else while they are using all their energy to stop us at another point."

Twelve years ago Mrs. Rogers was of large help to Miss ida Tarbell while the latter was preparing her story of the early manhood of the American. From Mrs. Rogers, Miss Tarbell learned many an important fact of the last months previous to the wedding of Mr. Lincoln and of his first association with Miss Mary Todd, who became Mrs. Lincoln.

As Jane Winters, Mrs. Rogers was a girl helper in the home of the Edwards family in Springfield, Ill., in the summer and fall of 1842. She was than years old. Her duties light housework for Mrs. Edwards.

Sweethearts Reunited

She said that during the early fall of 1842 Mr. Lincoln and Miss Todd had a misunderstanding over some matter and that for some time Mr. Lincoln made no calls upon Miss Todd. However, the wife of the editor of the lo-cal newspaper in Springfield, the Sangamon Citizen, who was a close friend of the Edwards family and an intimate of Miss Todd, fixed the difficulty up so that the sweethearts were reunited, when the evening calls by Mr. Lin-coln were resumed.

nearing completion.

The building and equipment now in place makes this one of the most attractive undertaking parlors in Southern California. No item of expense or labor has been spared to make it com-plete, according to T. A. Winbigler, this morning.

New ideas in many different lines have been introduced, and it has been the plan in all of these to make the place as attractive and beautiful as possible. Many of the old established features of such places have been done away with, and improvements put in their places

I have planned from the start to make the auditorium large, well-lighted, well-ventilated, attractive and home-like," said Winbigler.

The exterior of the building is finished in concrete painted white. It is beamed around the cornice in natural wood. The pillars, porticos and pergolas give the mission style to the building and this idea has been utilized by Winbigler in a name. Getting away from the old idea of an undertaking parlor, the name Mission Funeral Home has been adopted. The intention of the management is to furnish for the use of the public a home where funeral services may be held with all the conveniences and comforts of a real home

The auditorium is seated with white reedcraft chairs, and the reedcraft furniture is used throughout the auditorium in flower stands, tabourets and pedestals. A dozen flower stands are scattered among the chairs, thus breaking the rigidity of the seating and producing a parlor effect. Seating accommodations for 300 people are provided, by using all available space.

Another feature that has been introduced is in the way of music. The old, amiliar organ which has always been y a piano, carrying out the parlor efther furnishings of the room

"Representatives from the War Department left several days ago for Los Angeles and will be ready for confer-ences tomorrow," said Mr. Hampton last night. "Just when the work will be started rests with the government." While the contractor declined to make the amount of his bid public, it was said in building and engineering circles that the work would be on a basis of cost, plus a moderate per-centage, so that the character and the volume might be varied as circumstances required.

What the Merchants Have to Offer You

IS SUGGESS AT

Down at the San Joaquin fruit ranch there is a little chapel where religious services have been held every Tuesday night for the past year or two by the Tustin ministers. These services have been greatly appreciated. The chapel has been built and an organ purchased and last Wednesday night the dwellers at Shermuttville gave a delightful entertainment for the benefit of the ministers, Rev. M.

E. Ladieu and Rev. W. S. McDougal. A platform was built outside and a piano and seats provided. There were teresting program was given. There were readings, music and funny stunts. A number of Tustin people went down in automobiles. Quantities of delicious ice cream

and cake were served and a big socialtime was enjoyed after the program

To make the worst of it servant styles left to choose from never offered less diversity before. There are but few imported models being used this season oding to the difficulty of transportation. Some of our most serviceable little German effects can no longer be obtained and there is a scant showing of Swedish, County Clare and Hungarian model maids Naturally a domestic domestic isn't in it with the imported article but even a "made in America maid" is going at a premium these days.

Really the best little all around model for general housework is a Southern product. It is built on gen erous lines (Mason and Dixon mostly) and is worn very dark this season. is excellent for cooking and really shouldn't mind the heat. One of this model lot known as "The Virginia, is particularly smart, wears well and is guaranteed fast black.

Have you a little Finn in your home? If you contemplate getting one pick it young. A Finn is always much better at the flapper stage. Finns are especially handy at handing round the nash and besides they sort of add an extra finish.

Swedish models are scarce, aye, there's the rub, but if you can succeed in snaring one you will find them great for massaging the dishes and rubbing down the furniture and up the silver.

We have gone in so extravagantly for everything Chinese this year that it seems only meet we should follow up Oriental lines to the chief cook and bottle washer. A Chinese servant is a chink through which one bright ray of light is let in on our dark servant problem. A Japanese is sure to please. With one of these you'll live at ease. A Japanese man and his wife are a pair to draw to and two of a right kind that are hard to beat.

But it really won't do to be too fussy about your maid servant or your man servant this season. You mustn't mind if their complexion doesn't go with your wall paper or their style conflicts with your period furniture. You'll be lucky if you have any wait

er except a dumb waiter or any cook but a fireless cooker. Ruth Chatterton may think she is the only one who is starring in "Come Out of the Kitchen" this season—but

Tightened All 4 Wheels in One Hour

That's what you can do, too, if you use Spoktite. It is no longer necessary to have a blacksmith or repairman tighten your wheels the mechanical way. Neither need your vehicle remain idle half a day or longer while the job is being done.

Swells Wood

Easily Applied by Anyone

Spoktite is a liquid compound that goes right into the wood and swells it to its original condition of tightness. It tightens loose wheels as good as new and keeps them tight.

No need to take them off or apart in order to apply Spoktite. Simply squirt it into the cracks caused by the shrinkage at the hubs and felloes. It is put up in handy spout cans to make application easy.

Make Your Wheels Safe NOW

Loose wheels are apt to collapse in dangerous places and cause serious damage, if not personal injury. Prevent such accidents by "Spoktitening" your wheels at once. See your dealer Most garages, auto supply and hardware stores sell Spoktite. If yours do not, write our factory and we will see that you are promptly supplied.

LOS ANGELES PRODUCE MARKET

Meeting with Mrs. H. L. Bascom yesterday afternoon, the C. M. P. ladies sewed for the Red Cross, instead of the usual needlework occupation of fingers.

Russian engineers have estimated that the harnessing of two waterfalls in Finland and the transmission of the electric power to Petrobring in all the fruit they are losing in the tropics and take lower prices are would save that city 3,000,000 in the tropics and take lower prices. The garments under construction grad would save that city 3,000,000 in the tropies and take lower prices for the same. The United Fruit Company has built up its business on the principle of selling vast quantities of bananse at low prices and at a very small profit on each turnover. This has developed a great demand among the working classes of this country for bananas, which the company feels would be a shame to upset.

Cantaloupes were easier yesterday and the best standard pack stuff was NEW YORK, July 19.—One of the most surprising things in big league there is liable to be a glut of the lat-

commendation is zipped into the big circle through the announcement that Branch Rickey, first saw him work, and decided he was to be purchased regardless of the price to be paid. In view of the fact that George Silter and Ernie Koob, besides several others, received their first strong recommendations from the new president of the Cardinals, it is eafe to say that Goodwin's advance notices will not fall down.

Huggins always has been just as good a manager as he is proving to day The reason he never has proved in with any more vim in reaching high points in the National League standings couldn't be stronger stated in view of the reversal showed when the Cardinals were sold. His David Harun of Derations among clubs of the league, in which he fished out player after player and made them stars after other of the relubs declared them no good, have proved his worth at sizing up players. It was Huggins who located Rogers Horsby sunning himself in Texas and gave him a regular job. Also, it was Huggins, who picked up a youth named Watson one day, gave him a big league job, and lives to see his efforts rewarded by Watson's remarkable success. This year he has trotted out the league's leading bats and paw pitcher in Hortsman, who looks mighty sweet.
